INTERIOR DESIGN PORTFOLIO

INTERIOR DESIGN | COMPANY INTRODUCTION

LA RUBIBI APARTMENTS, KIGALI RWANDA

As a team of interior & landscape architects, craftsmen and plant artists, our design solutions are turnkey and one-of-a-kind. Living Room Design focuses on interior architecture, space planning, design and manufacturing of furniture.

Living Room Design has a truly complimentary and experienced team that have been working in the industry for 10 years. The team ensures that the design detailing, manufacturing and installation on site is been implemented and installed at the highest standard. Through team work and experienced skills, Living Room Design is able to offer a turnkey and comprehensive service. Our expertise are supported by highly skilled workers with various disciplines.

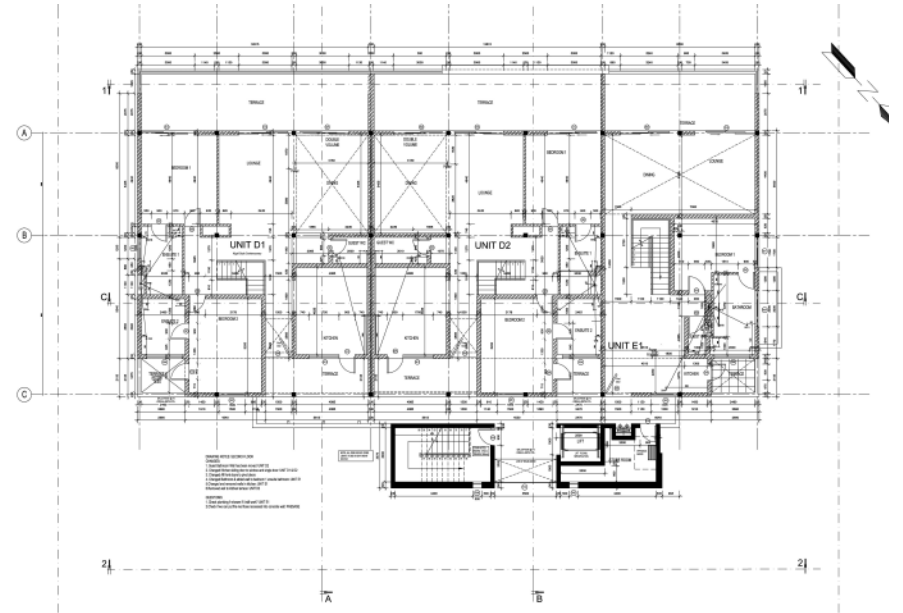

Some of the services supplied by Living Room Design are as follows: 1. Interior Design 2. Space planning 3. Detailing and reworking of architectural plans to improve the interior design 4. Design and procurement of furniture and shop-fitting items 5. Procurement of all soft finishes 6. Project Management 7. Site installation

APARTMENTS

La Rubibi Apartments, Kigali, Rwanda: Architectural plans were reworked for this project. All interior design drawings such as plans, elevations, sections and detailed shopfitting drawings were presented to client. Procurement of all materials, shopfitting and soft finishes were sourced and manufactured in SA and exported to Rwanda. Installation was done by a local team.

Various Residential Projects

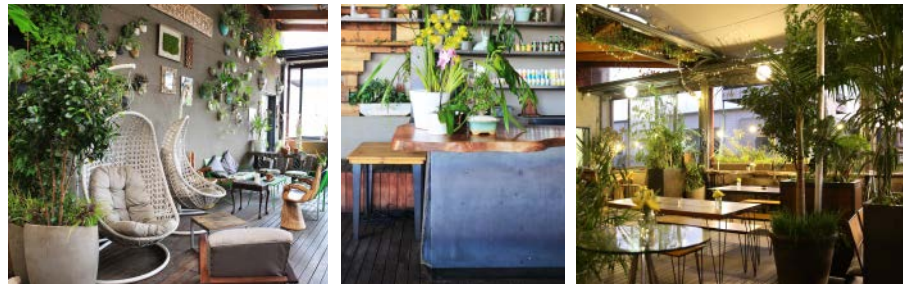

HOTELS & RESIDENSTIAL

Hotel Rocha, Luanda, Angola: Full Design package was compiled for client with plans, 3D's and furniture selection.

Residential Projects: We have worked on a variety of different residences, some based in South Africa and others in Luanda, Angola. Some residences were full turnkey projects and others only selected shopfitting items were designed, manufactured and installed.

INTERIOR DESIGN | OUR URBAN ROOFTOP DESIGN

THE LIVING ROOM CAFE & EVENTS VENUE, MABONENG

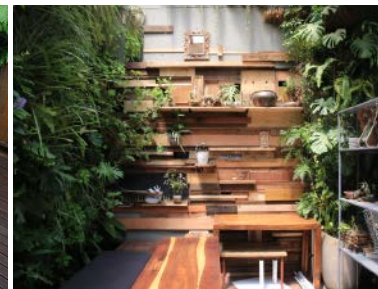

Born from a love of plants, natural materials and the way people respond to the way spaces have been designed. Metropolitan rooftop design is our speciality and we aim to create well designed spaces and inner city design solutions.

Our urban-boho renovation of a Joburg downtown rooftop into the iconic event venue and café, Living Room, is our “growing” showroom for our range of design and manufacturing expertise.

We modeled our business on a natural eco system, whereby our international café culture exposes the social impact of urban design and the beneficial effects of plants in the built up environment. Our social projects focus on inner city gardens, public spaces and permaculture.

INTERIOR DESIGN | OUR FURNITURE

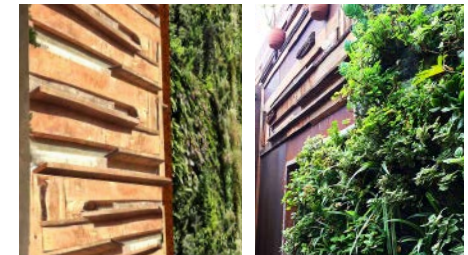

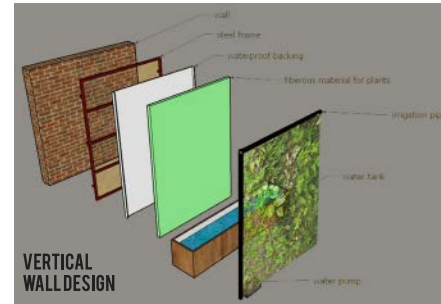

FURNITURE

From a love for natural elements and quality workmanship, comes a range of furniture that exposes the implicit beauty of its sustainably sourced materials. All items are handmade to the highest standard, the proof being the durable café furniture in Living Room that has lasted outdoors for over 5 years. This furniture is designed and manufactured on our premises in Kensington Johannesburg, called Temple Botanica

INTERIOR DESIGN | OUR VERTICAL WALLS

VERTICAL GARDENS

A growing eco-trend and one of our foremost passions is the creation of spectacular, sprawling green walls. We've developed a technique that results in neat, long lasting and waterproof installations. Green up your space with a variety of vertical garden solutions that are custom made for your setting.
